Release to Australian Stock Exchange

7 January 2013

ACQUISITION of Zenith Solutions (Aust) PTY LTD

RXP Services Limited (RXP) is pleased to announce that it has entered into a binding agreement to acquire Zenith Solutions Pty Ltd (Zenith).

Zenith Solutions provides specialist services across the data and information management domain and has an expanding team of highly skilled professionals. Zenith's consulting services are provided to a wide range of clients from SMBs through to large enterprises (including government bodies) and importantly establishes RXP in the Canberra region.

Commenting on the acquisition, Ross Fielding (RXP CEO) said, "The quality and use of data assets within a business has never been more important than it is today. As businesses strive to improve the level of service they provide to their customers, as they work to achieve greater customer retention and work to increase their own operational efficiency, the use of information and data becomes increasingly important".

"The acquisition of Zenith is another important step in the execution of the RXP strategy and further strengthens RXP's ability to provide what are critical consulting services in the business intelligence and information management domain. The acquisition also means that RXP now has an office in Canberra; an important geography as we work to build business in that region. We are really excited by the opportunities ahead of us as we work to leverage the integration of Zenith within the RXP team," Ross said.

CEO of Zenith Solutions, Bradley Taylor said, "we are really pleased to be joining the RXP team and being part of what clearly has been and will continue to be an exciting journey."

"We have been providing information management and business intelligence solutions to many companies over the past 5 years and joining the RXP team will see us continue to do so, but now with an even greater set of capabilities. We are really excited by the opportunities that this will provide both to our people and to our clients," Bradley said.

Having recently completed a successful capital raising of \$8.2M, and with the recent NSI Technology acquisition, the acquisition of Zenith means that the RXP team has grown to over 190 people with offices in Melbourne, Sydney, Canberra (new) and Hong Kong.

The company is committed to its strategic direction and looks forward to continued growth.
